

*Sink your teeth
into the world's
biggest problem.*

JOIN TODAY'S YOUTH IN FEEDING TOMORROW'S PLANET.

Bayer CropScience

BY 2050, THERE WILL BE 9 BILLION PEOPLE AND LESS FARMLAND AND RESOURCES THAN EVER BEFORE.

On August 24-28, 2015, young leaders from around the world will gather at the global Youth Ag-Summit to discuss ideas, develop a vision and deliver action for a sustainable future. If you're 18-25 and care about our planet, you should be part of this. Send us your thoughts and we might send you to Canberra, Australia to share them with 100 other bright young minds and industry leaders.

DISCUSS. DEVELOP. DELIVER. Together, we can set the table for change.
